MEMORANDUM FOR THE RECORD

SUBJECT: Scheduling of Pressure Chamber Tests - Detachment B Personnel

25X1A9a

25X1A5a2

1. On 1 June 1956, we were advised by [REDACTED] of Clark Company that the pressure suit for [REDACTED] had been shipped to Captain McGuire at Wright-Patterson, but that a leak had been found in the pressure suit for [REDACTED]. The Clark Company hoped to find this leak and ship the suit out by Saturday, 2 June.

25X1A9a

2. On 2 June 1956 we were advised that this had actually been accomplished so that as of this date, suits for [REDACTED] and [REDACTED] should be with Captain McGuire at Wright-Patterson.

3. It is our understanding that [REDACTED] went into the pressure chamber on 31 May. [REDACTED] are to begin physical examination at Lovelace on the morning of 5 June and should be finished at Lovelace about 7 or 8 June. They should then be scheduled for pressure chamber tests at Wright-Patterson, through the good offices of Lt Colonel Maher.

25X1A9a

4. [REDACTED] has had an EKG by the Agency Medics, an EKG at Wright-Patterson, and a thorough physical examination on 31 May and 1 June at Lovelace. He has been found disqualified for pressure chamber tests at Wright-Patterson and [REDACTED] has recommended to the Project Director that [REDACTED] no longer be authorized to fly solo.

5. Reference is made to CABLE 2508 (IN 01545) in which [REDACTED] says that survival training now scheduled to begin 11 June should be rescheduled for 25 June. [REDACTED] has also recommended that [REDACTED] not be permitted to undergo this training and we have asked [REDACTED] to follow through on this proposed rescheduling in order to find out why [REDACTED] has requested such rescheduling.
